Andry (23), A Cum Laude Business Management, Telecommunication & Informatics (ICT Business) graduate from Telkom University specializing in Telecommunication & Informatics, with international research publication credentials (Springer Nature). Proven experience in digital solutions, system validation, and project coordination through roles at Bank Mandiri and Permata Bank. Skilled in bridging business requirements with technical execution using UI/UX prototyping (Figma), data analytics, and user acceptance testing (UAT).

## Education

**Telkom University - Bandung, West Java** Aug 2020 - Aug 2024

*Bachelor of Business Management, Telecommunication & Informatics (ICT Business), (Cumlaude) 3.60/4.00*

- **Specialization:** Focus study on Electronic Service Quality (E-ServQual), digital platform optimization, and IT business analysis.
- **International Publication:** Co-authored and published a research paper "[Importance-Performance Between Mobile Shopping Service Quality and Zalora Customer Loyalty](#)" via Springer Nature (Atlantis Press, Nov 2024), analyzing data driven systems to improve digital service quality.

**Yasporbi 1 High School - South Jakarta, DKI Jakarta** Jun 2018 - Jun 2020

*High School Diploma in Social Sciences, 8.20/10.00*

- Rank the top 6 nominees in order of highest grades in 2020 batch.

## IT & Product Development Experiences

**PT Bank Mandiri (Persero) Tbk - South Jakarta, DKI Jakarta** Jul 2023 - Aug 2023

*Digital Solutions (Government Solutions) - Internship*

PT Bank Mandiri (Persero) Tbk, established on October 2, 1998, is Indonesia's largest bank by assets, loans, and deposits.

- Translated complex business requirements into high-fidelity UI/UX wireframes and prototypes (58+ layers) using Figma for Ministry (X)'s mobile application, ensuring alignment between user needs and technical feasibility.
- Led User Acceptance Testing (UAT) for Ministry (X)'s financial dashboard by developing structured test cases; identified critical functional bugs and analyzed system vulnerability risks to ensure high system reliability and security before deployment.
- Analyzed and verified end-to-end integration workflows for cross platform tax payment systems (EDC & ATM), securing transaction accuracy and conducting basic security risk analysis on backend data transmission.
- Collaborated within a cross-functional agile development team to bridge the gap between government stakeholders and internal engineering units.

**My Tel-U Mobile Application - Bojongsoang, Bandung** Feb 2023 - Sep 2023

*UI/UX Designer - Project Based*

Telkom University (Tel-U), established in 2013, is a leading private university located in Bandung, West Java, Indonesia.

- Designed and prototyped a student attendance feature with 11+ interface layers, optimizing system workflow and usability efficiency.

**Art Hub Mobile Application - Gegerkalong, Bandung** Sep 2022 - Dec 2022

*Project Lead & UI/UX Designer - Project Based*

Arthub is a supporting mobile application for people who like to sell a painting on Cigugur Girang Village.

- Engineered a functional UI/UX prototype, translating user business requirements into application features for validation.
- Led hands-on training sessions and designed structured training materials for 12+ participants to accelerate user adoption.
- Designed and delivered structured training materials, improving user comprehension and system usability.

## Additional Work Experiences

**Perfume Pop Market by Sagara Dreamworks - South Jakarta, DKI Jakarta** Sep 2025 – Apr 2026

*Account Executive - Project Based*

Perfume Pop Market is a fragrance event featuring 100+ local perfume brands.
